TOTO

NEOREST® – LUXURY AT ITS MOST BEAUTIFUL.

In their goal to create a premium experience, TOTO brought all tried-and-true technologies together in one elegant design:

NEOREST®. Every detail is an expression of perfection – from the touch-free sensor technology and smart surfaces to the harmonious lines that blend seamlessly into every modern bathroom.

NEOREST® WX is much more than just a bidet toilet. It represents a new understanding of comfort, well-being and hygiene – an experience that appeals to all the senses, transforming daily routines into pure relaxation.

THE KINFOLK
NATHAN
WILLIAMS

UNDERSTATED, YET EXTRAORDINARY.

Matte white brings a modern, velvety look to classic shades of pure white. The matte texture is subtle and luxurious, reducing reflections to bring a soft, calming elegance to spaces.

It's the ideal choice for timeless, understated and extraordinary design. Matte white radiates quiet luxury and style awareness.

NEOREST® COLLECTION MATTE BLACK

ELEGANCE IN ITS PUREST FORM.

Matte black exudes sophistication, luxury and elegance like no other ceramic colour.

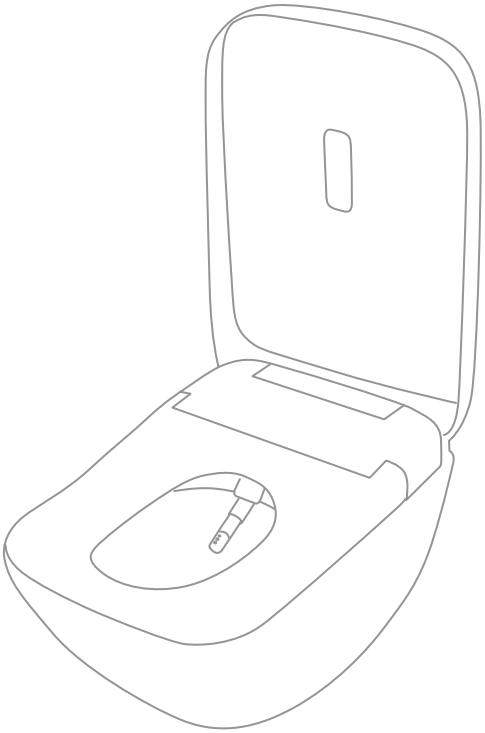
Black ceramics create striking accents in design, play with lighting effects and express exclusivity. They‘re ideal for high-end bathrooms.

PURE LUXURY

**Visionary technology.
Exquisitely designed
for comfort and well-being.**

**Born of science and our belief
in everyday wellness to
rejuvenate body and mind.**

**NEOREST®. The only one.
A new form of pure luxury
brought to life.**



完璧 –
THE JAPANESE ART OF PERFECTION

Perfection is a philosophy in many areas of life in Japan. This is reflected in people's everyday lives, how food is served or the perfect choreography that goes into a tea ceremony. It also plays a role in industry, where people follow the philosophy of Kaizen as a methodological concept in their work. At its heart is a striving for constant, never-ending improvement, optimisation and perfection.

NEOREST® WX follows this very same tradition. We devoted our entire experience and expertise from over 40 years of WASHLET production and more than 70 million models sold to this NEOREST®. It features all technologies from our latest WASHLET® generation in a design that cleverly conceals the state-of-the-art inner workings.

NEOREST® WX1 / WX2**

The NEOREST® WX models are among TOTO's premium products. They feature all the hygiene and comfort technologies available in the latest WASHLET generation.

Both NEOREST® models look the same when the lid is closed. NEOREST® WX2 also features ACTILIGHT technology. This uses a photocatalytic process to remove dirt and waste, ensuring a long-lasting clean all by itself.

NEOREST® WX1

WASHLET® for NEOREST® WX1*
incl. remote control
Colour: white
Material: urea resin
Dimensions: 449 × 667 × 122 mm

PERFECTION IN DESIGN AND FUNCTION

The flowing, curved design makes WASHLET® and the ceramic bowl look like a single unit without corners or edges - as if created in one mould.

No compromises were made to negatively impact either the design or technologies. The ceramic hides all the technical equipment, elegantly concealing the many special NEOREST® WX features from view.

TECHNOLOGIES AND FEATURES

HYGIENE

- **ACTILIGHT:** The photocatalytic glaze has the natural power to keep the toilet immaculate, making it the ultimate cleaning technology (WX2 only).
- **EWATER+** cleans the wand and toilet after use and helps keep dirt and waste from collecting.
- **PREMIST:** Mist of water sprayed onto the ceramic before the toilet is used. Makes it more difficult for dirt and waste to accumulate.
- Wand jet positioned above the ceramic, protective flap separates the wet areas for greater hygiene.
- Optimised ceramic composition for greater precision, minimising tolerances after the firing process.
- Seamless seat ring.
- Clean Resin, silicone-based material to protect the wand jet, seat and functional unit.
- **TORNADO FLUSH:** The circular motion makes this innovative flush spray-free, preventing germs and bacteria from spreading throughout the bathroom or onto the toilet seat.
- **CEFIONTECT:** The glaze is extremely smooth and makes it difficult for dirt to adhere to the surface.
- **RIMLESS DESIGN:** There are no difficult-to reach places for dirt and waste to accumulate.

COMFORT

- **AUTO FUNCTIONS** automatically raise the lid and flush the toilet. Sensors can be adjusted to five different distances. The 3 l or 4.5 l flush activates automatically based on time spent sitting.
- **WARM WATER NOZZLE** with individually adjustable wand system for intimate cleansing (water temperature, spray strength and position); self-cleaning.
- **HEATED SEAT** with adjustable temperature.
- Larger ergonomic seat for more comfort.
- **DRYER** with adjustable heat settings.
- Descaling function (with automatic descaling programme).
- **DEODORIZER:** Highly effective filtration system cleans the air in the toilet bowl, effectively eliminating unpleasant odors.
- Automatic nightlight with fade on/off feature.
- Power-saving feature with timer for three, six or nine hours.
- Registers user habits and switches to energy-saving mode accordingly.
- Remembers settings for four people.
- Remote control in four languages (German, English, French and Italian).

NEOREST® WX1 MATTE WHITE

NEOREST® WX1 exudes understated elegance in exquisite matte white. The essence of simplicity and perfection, it provides new inspiration for designing sophisticated bathrooms.

The colour and matte texture give the NEOREST® premium line a distinctive new presence in the space, meeting the need for a design that looks timelessly minimalist and light. Ceramics in matte white are as modest as they are extraordinary.

This refined aesthetic makes NEOREST® WX1 an especially luxurious choice when paired with coordinating washbasins and faucets.

NEOREST® WX1 MATTE BLACK

NEOREST® WX1 in velvety matte black makes a powerful statement in the bath. More than just a colour, it's a tribute to elegance.

Matte black reflects design excellence, luxury and elegance unlike any other ceramic colour. The expressively dark finish brings an unexpected moment to the interior, creating a strong accent for the bathrooms of tomorrow. Black provides the perfect backdrop for design, lending a particular depth to every space.

The new matte black versions also deliver a distinctive tactile experience. The soft, smooth surface appeals to the senses, enhancing the feeling of well-being in the bath.

FLOTATION TUB, FREESTANDING

Wellness with the highest design standards – bathing in a state of absolute deep relaxation. Japanese bathing culture is renowned worldwide. Traditionally, the bathtub is understood as a place of calm and inner reflection – a space for cleansing the soul.

ULTIMATE RELAXATION FOR BODY AND MIND

The body automatically assumes its ideal position in the Flotation Tub. The angles of the hip and ankle joints were inspired by the position of the human body in zero gravity.

This position promotes deep relaxation, which slows down activity in the speech centre of the brain – an effect normally only achieved during meditation.

COMFORT FEATURES

- Water cascades around the height-adjustable neck pillow, keeping the shoulders comfortably warm
- Air jets massage the legs, promoting the feeling of weightlessness
- HYDROHANDS massage for the lower back
- Relaxing LED light
- Control panel in the bathtub makes it easy to use the different massage functions

FLOTATION TUB*
FREESTANDING

VESSEL TL, ROUND*

Colour: white
Material: Linearceram
Dimensions: 600 x 420 x 117 mm
Product code: L4706E#XW

Technologies:
CEFIONTECT
LINERACERAM

VESSEL TL, ROUND

Highly durable ceramic in a delicate, slim-edge design. Less material, but just as durable: TOTO developed the truly unique LINEARCERAM technology for their washbasins.

LINEARCERAM makes it possible to achieve the same level of structural integrity with less material. Combined with the special CEFIONTECT glaze, the thin-panelled ceramic unites minimalist design with the high quality people associate with TOTO.

AUTOFAUCET ZN

Elegant, curved design, with sensor-based activation for top hygiene. The sensor on our automatic faucet is nearly invisible at the end of the spout.

SOFT FLOW technology produces an especially gentle stream of water that slides gently over the hands, minimising splashing or spray.

The highly sensitive sensor registers hand movements directly in front of the spout, which pours the right amount of water. A sensor on the side of the faucet makes it easy to change the temperature.

AUTOFAUCET ZN*

Colour: chrome
Material: brass
Dimensions: 58 x 190 x 236 mm
Product code: TLP01701G

VESSEL TL, ROUND MATTE WHITE

The TL Vessel in matte white is an excellent addition, putting a graceful finishing touch on the matte white collection.

Its delicate design and silky-smooth texture make an extraordinary impression. The TL Vessel feels serene, lightweight and timelessly elegant overall.

Matte white highlights the pure aesthetics of the design, epitomising the perfect balance of simplicity and sophistication.

VESSEL TL, ROUND MATTE BLACK

The delicate lines and velvety texture of the matte black TL Vessel are especially expressive. Together, they create a harmonious overall look that feels serene, modern and enduringly elegant.

The matte black surface emphasises the clean lines of the design, beautifully balancing powerful expression and subtle reserve.

FLOTATION TUB FREESTANDING, BICOLOUR WHITE / MATTE BLACK

The bicolour Flotation Tub captivates with its high-contrast look and interplay between colour and form, which brings style awareness to deep relaxation.

The Flotation Tub is like a suspended piece of art in dialogue between light and shadows. The bicolour design lends the tub depth and character, balancing clarity and contrast to transform the space into a serene oasis.

Design, aesthetics and comfort unite to create an exceptional experience. Every moment in the Flotation Tub is a conscious time-out from the rest of the world, allowing the bather to pamper both body and spirit.
